

 **UNIVERSHAL** 

HI-TECH ENVIROCARE SOLUTIONS

Ours Firm in the Filed of Environmental Industries waste water treatment/ Management technical services/ Erection & Fabrication works/ Operation Maintenance/ AMC etc contractor.

To provide services from Engineering, Procurement, and Installation to Commissioning of waste water treatment Plant.

To provide total solution to achieve zero discharge or reuse of effluent.

Water Treatment Solutions

Keeping water safe and sustainable.

REDUCE - REUSE - RECYCLE
Waste Converted in to Energy

About Us

we offer Projects well on consultancy services along with solution, technical assistance and wide range of supportive services. This shall take care of all the essential aspect of Project Implementation.

We undertake Project Execution on Turnkey basis in the field of Renewable Energy Generation, Recycle plants, Water & Waste- water treatment and Infrastructure Projects.

We also undertake the study of existing effluent treatment plants and suggest the economically viable solution to improve the performance of the ETP and refurbish the existing ETP to meet expected guaranteed performance.

We are promoting a specially developed anaerobic and aerobic culture based on microbial counts which has shown much higher efficiency to treat waste water and improvement in biogas generation on a consistent basis.

Our Clients

- Tamil Nadu co-operative Sugar Ltd
- Tamil Nadu co-operative Milk producer's Federation Ltd
- Bhavani Distilleries, Chemicals Ltd
- Kals Breweries Ltd
